Re: Burlington Environmental Pier 91 facility Draft Permit  
WAD000812917

Dear Mr. Aggerholm:

Please find enclosed the Draft RCRA Part B Permit for the Burlington Environmental Pier 91 facility. Also enclosed is the responsiveness summary for the preliminary draft issued on September 30, 1991. Ecology has responded to all comments received on the preliminary draft and incorporated suggested changes where appropriate. In addition, as you are aware, the Environmental Protection Agency has chosen to delay the issuance of the corrective action permit under their federal authority. Consequently, this draft permit is issued by Ecology solely under the authority of Washington State.

Public notice of this draft permit is being issued on Wednesday, May 27, 1992. On the same date Ecology is also issuing public notice of a tentative decision to accept the Demonstration of Compliance with the Siting Criteria as well as public notice of the issuance of a Determination of Nonsignificance (DNS) for the Pier 91 proposal. Comments on the draft permit and siting criteria decision will be accepted until July 13, 1992. Comments on the DNS will be accepted until June 11, 1992. Copies of all of these documents, as well as the facility fact sheet are also enclosed.
